

BACHELOR IN COMPUTER APPLICATIONS (BCA)

Term-End Practical Examination

00165

December, 2008

CS-67P : RDBMS LAB

Time allowed : 2 hours

Maximum Marks : 75

Note : *There is one compulsory question in this paper carrying 50 marks. 25 marks are for viva-voce. Use any DBMS for implementation.*

1. A database contains information about sales representatives, sales areas and products. Each sales representative is responsible for sales in one or more areas and also for sales of one or more products. Perform the following activities for the requirements as above :
 - (a) Design and implement the tables/relations for the requirements as above. You must include the keys, constraints and validation checks in your implementation. 20
 - (b) Enter about 3-5 sets of meaningful data in each of the table/relation. 10
 - (c) Design and implement 5 suitable queries/forms/reports for the database. 20

Make suitable assumptions, if any.
