FOREWORD

Dear Learner,

It gives me great pleasure to welcome you to Indira Gandhi National Open University (IGNOU). I congratulate you for joining M. Ed Special Education which is a combined effort of IGNOU and Rehabilitation Council of India (RCI). Master of Special Education Programme through Distance Education mode has been designed and developed for professional development of Special Education Teachers, promoting research in special education and inclusive education as well.

The centrally sponsored scheme of Rashtriya Madhyamik Shiksha Abhiyan (RMSA) targets universal access of Secondary level education to all students by 2015 by providing a secondary school and universal retention by 2020 including children with disabilities through inclusive education. But, there is a little scope for higher education for the students with disabilities. However, different GO and NGOs have taken initiatives to open opportunity for higher education for the students with disabilities. But, the most challenging task is to orient and train all the secondary school/college in face to face mode to address to the special needs of the students with disabilities in regular classroom. At the same time, we don't have sufficient number of human resource in special education. Therefore, IGNOU has put an effort with RCI to offer this programme to meet the requirement of the human resource for higher education to effectively deal the student with disabilities at higher secondary level/college level.

It is with this objective to meet the above requirement Master of Education in Special Education is launched. This course is intended to prepare the master trainers and developing the required competencies. I wish you all good luck.

INTRODUCTION

The Master of Special Education programme is a collaborative initiative of Indira Gandhi National Open University (IGNOU) and Rehabilitation Council of India (RCI) which is being offered through distance education designed for in-service teachers of mainstream Schools. Presently this Programme is being offered in English.

The Persons with Disability Act 1995 has a provision of providing education to children with disability in the most appropriate environment. The centrally sponsored scheme of Rashtriya Madhyamik Shiksha Abhiyan (RMSA) targets universal retention by 2020 including children with disabilities through inclusive education. However, it is a great challenge to provide higher education to the students with disabilities. Similarly, it is challenging task to orient and train all the higher education teachers throughout the country in face to face mode. However, this cannot be achieved unless teachers are qualified to help such children and their parents. Master of Special Education has been developed to impart the competencies and skills to the teachers for dealing students with disabilities. It enables the teacher to imbibe knowledge, understanding, attitude and skills to impart quality education efficiently.

The course content of Master of Education in Special Education the endeavors to address the various issues and concerns related to education of children with disabilities. In order to realize the objectives, the programme is designed as a combination of print material-based learning and face-to-face contact sessions, which can be completed in two years. Though the print material is self-instructional in nature, to enable the learners to understand the printed study material as well as to provide individualized guidance and practical training regarding carrying out the various activities with the children with disabilities, face-to-face training programme will be organized by the Programme Study Centres.

The efforts of National Centre for Disability Studies (NCDS) for developing such an innovative programme of a comprehensive nature are indeed commendable. Let us all get into a knowledge partnership where we help and support each other to create a facilitating environment for Persons with Disabilities to become part and parcel of an inclusive society that we are aiming for in the near future.

1.5 Academic Programmes

The University offers both short-term and long-term programmes leading to Certificates, Diplomas and Degrees, which are conventional as well as innovative. Most of these programmes have been developed after an initial survey of the demand for such Programmes. They are launched with a view to fulfill the learner's needs for:

- ❖ certification,
- ❖ improvement of skills,
- ❖ acquisition of professional qualifications,
- ❖ continuing education and professional development at work place,
- ❖ self-enrichment,
- ❖ diversification and updation of knowledge, and
- ❖ empowerment.

1.6 Course Preparation

Learning material is specially prepared by teams of experts drawn from different Universities and specialized Institutions in the area spread throughout the country as well as in-house faculty. These materials are scrutinized by the content experts, supervised by the instructors/unit designers and edited by the language experts at IGNOU before they are finally sent for printing. Similarly, audio and video cassettes are produced in consultation with the course writers, in-house faculty and producers. The material is previewed and reviewed by the faculty as well as outside experts and edited/modified, wherever necessary, before they are finally dispatched to the students, Study Centres and Telecast through Gyan Darshan.

1.7 Credit System

The University follows the 'Credit System' for most of its programmes. Each credit in our system is equivalent to 30 hours of student study comprising all learning activities (i.e. reading and comprehending the print material, listening to audio, watching video, attending counseling sessions, teleconference and writing assignment responses). Thus, a 6 credit course involves 180 hours of study. This helps the learner to know the academic effort he/she has to put in, to successfully complete a course. Completion of an academic programme (Degree or Diploma) requires successful completion of the assignments, practical projects and the term-end examination of each course in a programme.

1.8 Support Services

In order to provide individualized support to its learners, the University has a large number of Study Centres, spread throughout the country. These Study Centres are coordinated by 58 Regional Centres and

Recognized Regional Centres. At the Study Centres, the learners interact with the Academic Counsellors and other learners, refer to books in the Library, watch/listen to video/audio programmes and interact with the Coordinator on administrative and academic matters. The list of Regional and Study Centres is given in this handbook. Support services are also provided through Work Centres, Programme Study Centres, Skill Development Centres and Special Study Centres.

1.9 Programme Delivery

The methodology of instruction in this University is different from that of the conventional Universities. The Open University system is more learner-oriented and the learner is an active participant in the pedagogical (teaching and learning) process. Most of the instructions are imparted through distance education methodology and face-to-face mode as per the requirement.

The University follows a multimedia approach for instruction, which comprises:

- a) **Self Instructional Written Material:** - The printed study material (written in self-instructional style) for both theory and practical components of the programmes is supplied to the learners in batches of blocks for every course (on an average 1 block per credit). Each block which comes in the form of a booklet usually comprises 4 to 5 units.
- b) **Audio-Visual Material Aids:** - The learning package contains audio and video CDs which have been produced by the University for better clarification and enhancement of understanding of the course material given to the learners. A video programme is normally of 25-30 minutes duration. The video cassettes are screened at the study centres during specific sessions which are duly notified for the benefit of the learners. The video programmes are telecast on National Network of Doordarshan and Gyan Darshan. All Gyan Vani stations are broadcasting curriculum based audio programmes. In addition, some selected stations of All India Radio are also broadcasting the audio programmes. Learners can confirm the dates for the programmes from their study centres. The information is also provided through the university website.
- c) **Counselling Sessions:** - Normally counselling sessions are held as per schedule drawn by the Study Centres. These are mostly held during the non-working hours of the host institutions where the study centres are located.
- d) **Contact Programme:** - The University organizes contact sessions for selected programmes to meet specific learners' needs. This also gives an opportunity for face-to-face interaction of students with the members of the faculty and other experts in the subject.
- e) **Teleconferencing:-** Live teleconferencing sessions are conducted via satellite through interactive Gyan Darshan Channels as well as simulcasted on 'Edusat' channel from the University studios at EMPC, the schedule of which is made available at the study centres.
- f) **Interactive Radio Counselling (IRC):-** Interactive Radio Counselling is a recent concept in distance learning in India. Live counselling is provided on radio by the experts. Students can interact with experts' right from their homes on telephone. These sessions are conducted for one hour. The complete details are made available with the Programme Centres. A toll free telephone number 1800112345 has been provided for this purpose from selected cities.
- g) **Distance Learning Facilitator:** - If the number of learners for a particular programme at a study centre falls below 10 (ten) then usual counseling sessions will not be conducted. The support services may be handled by a Distance Learning Facilitator (DLF).

- h) **Practical's / Project Work:** - Some Programmes have practical/project component also. Practicals are held at designated institutions for which schedule is provided by the Study Centres. Attendance at practicals is compulsory. For project work, comprehensive project guide, in the form of a booklet, is provided to the student along with the study materials.
- i) **Practical Handbooks:** - The practical handbooks are specially prepared for the students who enroll for the programme and for the Resource Persons who are involved in the programme. These handbooks provide the complete information and guideline about the Practical Component of the Programme. These handbooks further explain the role and responsibility of the learners and the Resource Persons and other functionaries involved in the delivery of the programme.

1.10 Evaluation System

The system of evaluation in IGNOU is also different from that of conventional universities. IGNOU has a multi-tire system of evaluation.

1. Self-assessment exercises within each unit of study.
2. Continuous evaluation mainly through assignments which are tutor-marked, practical assignments and seminar/ workshops/extended contact programmes.
3. The Term-End Examinations (TEE)
4. Practical /Dissertation presentation and Viva-Voce

The evaluation of learners depends upon various instructional activities undertaken by them. A learner has to write assignment responses compulsorily before taking term-end examination from time to time to complete an academic programme. A learner has to submit Tutor Marked Assignments (TMA) responses to the Coordinator of the Study Centre concerned to which s/he is attached. A learner should keep duplicate copies of assignment responses of TMA that may be required to be produced at Student Evaluation Division (SED) Division on demand. Term-end examination is conducted at various examination centers spread all over the country and abroad in June and December.

IGNOU uses the following system of "Grading" for evaluating learner's achievement

Grade	Qualitative Level	Point Grade
A	Excellent	5
B	Very Good	4
C	Good	3
D	Average	2
E	Unsatisfactory	1

For Bachelors' and Masters' degree programmes, normally the system of numerical marking is followed, and the marks secured in assignments, TEEs, etc. are later converted into grades as per the five-point grading scale given above. However, if required by the learner, the university provides numerical marks and division (I, II or Pass).

1.11 Term-End Examination

The University conducts Term-end Examination twice a year in the months of June & December. Students will be permitted to appear in term-end examination subject to the conditions that registration for the courses, in which they wish to appear is valid, minimum time to pursue these courses is elapsed and they have also submitted the required number of assignments, if any, in those courses by the due date.

Students can also submit On-line examination form as per guidelines through IGNOU website at www.ignou.ac.in.

2. REHABILITATION COUNCIL OF INDIA

Rehabilitation Council of India is a Statutory Body of Ministry of Social Justice & Empowerment, set up by an act of Parliament in 1992 and charged with the responsibility of planning, developing, and standardizing the quality of training for sixteen categories of Rehabilitation professionals under its purview to meet the needs of the life span of persons with disabilities. This Act was further amended in the year 2001 to widen the responsibilities of the Council to include:

- ❖ **Standardization** of training courses for professional/personnel's needed for the special education or rehabilitation of persons with disabilities.
- ❖ **Regulation** of training policies, programmes and standards in the field of Special Education and Rehabilitation.
- ❖ **Recognition and Monitoring** of Institutions/Organizations/Universities offering courses for training of rehabilitation professionals.
- ❖ Maintenance of a **Central Rehabilitation Register (CRR)** of all qualified persons in the field of Special Education and Rehabilitation.

Under section 13 of the RCI Act, *no persons, other than the rehabilitation professionals/personnel who possess a recognized rehabilitation qualification and is enrolled on the Central Rehabilitation Register (CRR):*

1. *Shall hold office as rehabilitation professional or any such office (by whatever designation called) in Government or in any institution maintained by a local or other authority.*
2. *Shall practice as rehabilitation professional anywhere in India*
3. *Shall be entitled to sign or authenticate any certificate required by any law to be signed or authenticated by a rehabilitation professional;*
4. *Shall be entitled to give an evidence in any court as an expert under Section 45 of the Indian Evidence Act, 1872 on any matter relating to the handicapped:*

The Act further states that those who act in contravention of any provision of subsection (2) cited above shall be punished with imprisonment for a term which may extend to one year or with fine which may extend to one thousand rupees, or with both.

In implementing its responsibilities, over the last decade and more, the **Rehabilitation Council of India** has played a crucial role **in offering a better quality of life for persons with disabilities**. The Council has developed numerous need based training programmes for special education and rehabilitation of persons with disabilities. Further, RCI realized that in order to meet the huge need for trained manpower in the area

of special education in the country, the most viable option was through the distance mode of education, because of its flexibility and wide coverage, and thus extended the range of delivery of training by offering distance education courses.

Distance Education in itself is a growing field, as it offers the option of self study at the doorstep of the student, along with the support and guidance of trained faculty at the Study Centres close to home. It allows the student trainees flexibility of study hours and enables them to continue to work and study at the same time. Moreover the system of distance education has the potential to fulfill the enormous responsibility of *universalization and democratization of education*, as it holds the promise of checking the falling standards at reasonable costs, making the optimum use of media and technology and providing education relevant to the needs of the country.

The Rehabilitation Council of India visualizing the benefits of distance education in the area of disability rehabilitation and its potential for preparing professionals in the field of Special Education began to collaborate with Open Universities to promote and implement Special Education training programmes for the empowerment of a special target group of learners with disabilities.

2.1 MoU between IGNOU & RCI

IGNOU is offering need-based Special Education Programmes through Distance Education Mode in collaboration with Rehabilitation Council of India (RCI) within the framework of the Memorandum of Understanding (MoU) signed between the two on September, 2007. Under the provision of MoU, IGNOU has been recognized as the apex National Resource Centre for Special Education and Rehabilitation programmes through Distance Mode.

IGNOU will collaborate with RCI in design and development of Special Education and Rehabilitation programmes through Multimedia Distance Mode and will also facilitate delivery and certification of such programmes.

3. NATIONAL CENTRE FOR DISABILITY STUDIES

In order to achieve the goal of universalisation of education and also higher education (i.e., teaching, training, research, extension and good governance, as specified by the IGNOU Statute, the National Centre for Disability Studies (NCDS) was established to undertake plethora of academic, research, extension and awareness activities for empowering the persons with disabilities and create a society that is friendly for them. **NCDS has received the approval of Academic Council, IGNOU to start the programmes related to Disability Studies.**

The National Centre for Disability Studies has been set up with the following broad objectives:

It is an innovative programme, utilizing self-learning materials (SLMs) and information and communication technologies (ICTs) along with an interactive personal contact programme component. To effectively impart instruction, the programme follows the multimedia approach, viz., print materials, audio-video components, teleconferencing, Interactive Radio Counselling (IRC), assignments, counselling sessions, personal guidance for research, workshops, individual and group activities, etc.

Teachers have crucial role to play in preparing young people not only to face the future with confidence but also to build it with purpose and responsibility.
