

Course Name:	Laboratory Techniques in Physics
Course Code:	LT- 04
Credits:	02 Credits

Experiment 1: Measurements in Physics

Experiment 2: Stationary Waves in Stretched Strings

Experiment 3: Measurement of Thermal Properties

Experiment 4: Investigations with Mirrors and Lenses

Experiment 5: Working with a Spectrometer

Experiment 6: Handling and Maintaining a Multimeter

Experiment 7: Fabrication of an Extension Board

Experiment 8: Simple Current and Voltage Measurements

Experiment 9: Using an Oscilloscope
