

Guidelines for Online Conduction of Practical in MA Psychology IInd Year

(MPCE 014/024/034)

Dear Academic Counsellor,

The present guidelines are for the online conduction of practical in MA Psychology IInd Year. This is **NOT** applicable for the First-year learners of MA Psychology. These guidelines will be implemented for those learners who will be writing their **Term End Examination in June 2020**.

You must have access to the Practical Handbook (MPCE 014/ MPCE 24/MPCE 034); if not then you may access the softcopy from <http://www.ignou.ac.in/ignou/aboutignou/school/soss/programmes/detail/405/2>. The Handbook presents an overview about psychological testing according to the specialization groups that is opted by the learner in MA IInd Year. Since lab work is not possible in the present pandemic crisis (COVID), the Discipline of Psychology has outlined different activities/tests to be completed as part of online conduction of practical. The three specialization groups have different sets of activities/tests to be completed under your guidance. The activities/test have been given in a simple and self-explanatory manner.

- Tests: About the test, test history, any theory/framework that it is based upon, as well as the construct that it is assessing need to be explained to the learner. The psychological test has to be conducted under your guidance. In the present situation, the learner needs to inform you about the tests that they will be administering. Academic counselling sessions will be conducted in this regard.
- Activity: In this format, an article link or a video link related to the activity will be provided to you which will be followed by the instructions to complete the task. Academic counselling sessions will be conducted in this regard.
- There will be three online sessions, each of two hours duration where you need to explain the tests/activities mentioned below for each of the specialization groups. Attendance to the sessions is **mandatory**.
- Please read the tests/activities before conducting online sessions. The activities/ tests are outlined separately for each specialization group.

Thank you for your cooperation.

Faculty, Discipline of Psychology
