Celebrates
National Education Day

On
11th November 2020

On the birth anniversary of Maulana Abul Kalam Azad, the first Education Minister of India, the National Education Day is celebrated every year on 11th November 2020 all over the country.

This year, the School of Education, IGNOU is celebrating the National Education day by organizing a lecture on “Significance of National Education Day in the light of the National Education Policy, 2020”. The National Education Policy 2020 is a policy of the 21st century which aims to address the many developmental imperatives of our country. This policy proposes the revision and revamping of all aspects of education, including its structure, regulation and governance. It intends to create a new system that is aligned with the aspirational goals of the 21st century education, and the SDG 4, for ensuring inclusive and equitable quality education and provide life-long learning opportunities for all, while building upon India’s traditions and value systems.

As a part of the celebration, the School of education is also organizing a special session on ‘Online and Digital Education: Ensuring Equitable use of Technology in Teaching- Learning Process’, in the light of emergence of technology and its use in teaching-learning process at all levels, from school education to higher education. It is hoped that the deliberations will help the stake holders in implementing technology mediated teaching-learning process effectively.
