

Vision and Mission of the University - 2030

In the context of contemporary developments, the changing needs of society and the challenges and opportunities offered by new technologies, there are areas where the University has to venture to keep pace with the demands of the new-age learners and make the University a world-class institution of higher education and research.

VISION

“To be a premier Open and Online University of the country with national and international recognition for its technology-driven quality higher education catering to the needs of learners and society guided by the core values of openness, flexibility, affordability, inclusiveness, lifelong learning and excellence”.

MISSION

- Expanding the reach of the University to achieve the targeted GER and include the unserved target groups including the SEDGs into the fold of higher education;
- Strengthening the University's international presence;
- Rethinking the processes of designing, developing and delivering an enhanced learning experience through technology-enabled teaching-learning methods;
- Offering market-driven professional programmes of global standards for preparing the youth for global competitiveness and employability;
- Promoting the development of holistic and multidisciplinary programmes and courses embedded with skills in all degree programmes to enhance environment sensitivity, human values, professional ethics, and employability quotient of the youth;
- Developing academic programmes catering to the need of neglected regions and communities and engaging them in socially productive activities;

- Strengthening industry-institution interaction for design and development of curricula relevant to the higher education ecosystem for the mutual benefit and growth of industries and the University;
- Fostering collaboration with the government/non-governmental organizations/research institutions to strengthen the learners' engagement with community development, research, skill development, employability, etc.;
- Updating and globalizing the curriculum to keep pace with the changing requirements and relevance in global scenario;
- Monitoring and maintaining strict schedules in the development, delivery and revision of programmes;
- Enabling mechanism for lateral entry and flexible exit options in the majority of the UG/PG programmes;
- Providing a high quality teaching-learning environment to independent learners capable of using online technologies with the required skills and competencies of a knowledge society;
- Increasing the output of graduates with employable skills in both research and professional fields;
- Incentivizing research both academic and systemic for quality improvement and better academic visibility;
- Enhancing the quality of academic and sponsored research by promoting applied research, innovation, incubation and entrepreneurship;
- Redesigning of learner support services at all levels and strengthening online support services to learners;
- Introducing e-Office management and automation of human resource and financial management in the University to reduce human intervention;
- Providing continuous professional development and self-empowerment of academic and non-academic staff by inculcating motivation, teamwork and leadership;
- Sensitizing and engaging the academic and non-academic staff with issues such as gender, environment and sustainability, social cohesion, national integration, human values and professional ethics, etc.;
- Attracting and retaining qualified and competent teachers, academics and non-academic staff and boosting their morale to provide better services;
- Institutionalizing quality assurance through monitoring and review the functioning of the University to promote outcome-based practices;
- Encouraging alumni for contributing/giving back to the institution; and
- Developing international visibility and recognition by increasing the University's ranking at the global level.
