At the outset, the Chairperson welcomed the members of the School Board. Thereafter, the following items on the agenda were deliberated:

- To confirm the minutes of the 52nd meeting of the School Board of the School of Item No. 1: Sciences held on 8th May, 2015 and to note the action taken thereon.
- SB 53.1.1 The School Board was informed that the Minutes of the 52nd meeting of the School Board of the School of Sciences held on 8th May, 2015 were circulated to members on June 4, 2015 and no comments had been received.
- SB 53.1.2 The Minutes of the 52nd meeting of the School Board were confirmed as circulated on June 4, 2015.
- SB 53.1.3 The Action Taken Report was noted by the School Board.
- SB 53.1.4 A copy of the confirmed Minutes of the 52nd meeting of the School Board of the School of Sciences held on 8th May, 2015 (without Annexures) and the Action Taken Report are placed at **Annexures 1** and **2**, respectively.
- Item No. 2: Matters arising from the minutes.

There were no matters arising out of the Minutes.

- Item No. 3: To consider and approve the Minutes of the Expert Committee meeting held on July 1, 2015 to resolve the matter of Associate Degree holders from Defence Services.
- SB 53.3.1 The School Board was informed that on May 15, 2015, a request had been received by the School from the Defence Unit of IGNOU to 'examine and place their opinion/suggestion/guidelines on the registration form and the choice of courses to be offered during registration of Associate Degree Holders under Gyandeep & Akashdeep into 3rd year of B. Sc. under Vertical Mobility Scheme.' The 3rd year Registration form and the list of IGNOU courses were appended along with other relevant documents pertaining to the decisions of the Academic Council (in its 55th meeting) and the Board of Management (in its 118th meeting). Since this was the first time that the case of Associate Degree Holders in Science under Gyandeep and Akashdeep was being referred to the School of Sciences, the School requested for details such as copies of the MoUs with the Army and the Air Force, lists of courses

taken by the Associate Degree Holders in Science along with the syllabi of the courses and whether all Associate Degree Holders in Science fulfilled the minimum eligibility criteria for admission in the B. Sc. Programme. These details were received on June 9, 2015 from the Defence Unit.

In this context, the School Board was informed that IGNOU had signed MoUs with the Army and the Air force under which the defence personnel who had done 10 + 2 with science subjects were registered with IGNOU for the award of Associate degree in Science as part of the IGNOU Community College Schemes for the Army and Air force. The School Board was further informed that a large number of students enrolled from Army and Air Force had completed courses worth 64 credits for the award of Associate degree in Science as per the lists attached at **Annexures** 3 and 4. They were eligible for lateral entry into 3rd year of the Bachelor's degree programme of IGNOU in order to complete the remaining 32 credits from IGNOU's B.Sc. courses.

The School Board was also informed of the decision taken by the Board of Management of IGNOU in its 118th meeting held on June 15, 2013 to 'discontinue the existing Community College Scheme' and that 'prior approval of the statutory authorities shall be obtained for offering programmes'.

In compliance with the decision of the Board of Management, IGNOU, the School of Sciences discussed the issue in a meeting of the School Council held on June 22, 2015 and was of the opinion that while the University should be pro-active in resolving the issue, the provisions of the Act, Statutes and Ordinances of the University must be adhered to strictly and the academic credibility of the University should not be compromised in any way. Moreover, the University's own B. Sc. Degree holders should not be put to any disadvantage on account of the provisions of the MoUs with the Armed forces.

The School Council noted that the Associate degree in Science comprised courses that were applied in nature. It suggested that the University could explore offering a B. Sc. (Hons.) Degree in Applied Sciences, while conforming to UGC stipulations. However, the programme structure and syllabi recommended by a duly constituted Expert Committee needed to be processed for necessary statutory approvals. The Minutes of the School Council meeting held on June 22, 2015 are appended at Annexure 5.

Following the recommendations of the School Council, a meeting of the Director, SOS and senior Faculty members with Gyandeep and Akashdeep officials was held

on June 25, 2015 at 11:30 a.m. in the Conference Room of the School of Sciences to know their perspective. After detailed deliberations, it was agreed that

- 1. The Associate degree holders could be awarded B. Sc. (Hons.) Degree in Applied Sciences, provided they opted for courses worth 32 credits from the B. Sc. Programme of IGNOU. The School shall propose specific sets of courses from the already approved list of courses;
- 2. Options for B. Sc. (Hons.) in the relevant Science Disciplines of the School of Sciences (Physics, Chemistry, etc.) could also be opened with the facility of credit transfer as per existing IGNOU norms and procedures, of the courses completed by the Associate degree holders. Moreover, they would have to opt for a prescribed set of additional courses approved by the statutory bodies.

The Minutes of the meeting are appended at **Annexure 6**.

In order to obtain statutory approvals in a given time frame and treating this case as a special one, an Expert Committee meeting was held on 1st July, 2015 to consider the matter and specifically recommend the nomenclature of the programme, programme structure for the award of the degree B. Sc. (Hons.) Degree in Applied Sciences and the list of courses to be prescribed to Associate degree holders.

The Minutes of the Expert Committee meeting (Annexure 7) along with its appendixes were placed before the School Board for its consideration and approval.

- While deliberating the issue in detail, including the recommendations of the Expert SB 53.3.2 Committee, the School Board expressed the following views:
 - The provisions of the Act, Statutes and Ordinances of the University should have been adhered to strictly, and the School Board should not have been bypassed while deciding on the programmes to be offered, their structure and the syllabi of the courses and it should not happen, in future.
 - Any step taken to honour the commitment of IGNOU to the existing Associate Degree Holders in Science should be a one-time measure, not to be quoted as precedence.
 - The B. Sc. degree holders of IGNOU should not be put to a disadvantage.

SB 53.3.3 After deliberating at length, the majority decision of the School Board School was that

> The Associate Degree Holders in Science from the Army and the Air Force be admitted to third year in IGNOU for the award of the degree of B. Sc. (Hons.) in Applied Sciences as a one-time measure.

The School Board further decided that

Only the existing students admitted through Gyandeep and Akashdeep for the Associate Degrees in Science till January, 2012 be enrolled in the third year for the B. Sc. (Hons.) in Applied Sciences degree and be offered courses from the prescribed list given ahead.

The University authorities may like to seek the approval of the UGC, if needed.

The following Programme structure for the B. Sc. (Hons.) in Applied Sciences was approved by the School Board:

S. No.	Category of Courses	Total Credits	No. of credits from Associate degree and from IGNOU
1.	Foundation Courses	24	16 credits as prescribed in the MoU and 8 credits worth Foundation Courses in Languages (in English, Hindi or MILs) of IGNOU

The School Board also decided that alternative options for B. Sc. (Hons.) in the relevant Science Disciplines of the School of Sciences (Physics, Chemistry, etc.) could be offered with the facility of credit transfer of the courses completed by the Associate degree holders in Science as per IGNOU norms and procedures. Candidates desirous of pursuing these programmes would opt for the prescribed set of additional courses required for the respective degrees.

SB 53.3.4 The School Board further decided that no new Community College scheme should be designed for potential candidates from the Armed Forces who may like to seek admission in IGNOU after the cut-off date of January, 2012 and who would like to pursue graduate degree programmes in sciences. Instead, the University should design specific degree programmes in sciences taking into account their prior learning in a realistic and holistic manner and grant admission to such aspirants directly into those programmes.

> Programmes in science related areas should be designed, developed and offered following the laid down procedures of IGNOU and statutory approvals taken, once a request is received from the Army/Air Force.
