These exercises are given to help in judging your own progress. For this purpose, we have provided the answers to these exercises at the end of each Unit. We have already mentioned this in the Programme Guide.

Before dispatching your answer script, please make sure you have taken care of the following points:

- Your roll number, name and address have been written correctly.
- The title of the course and assignment number has been written clearly.
- Each assignment on each course has been written on separate sheets and pinned properly.
- All the questions in the assignments have been answered.

Now read the guidelines before answering questions.

GUIDELINES FOR CNCC-2 ASSIGNMENT

Assignment has three parts-Section A, Section B and Section C.

ALL THREE PARTS OF EACH ASSIGNMENT ARE COMPULSORY.

If you do not submit all the parts of the assignment together, your assignment will not be considered complete and will be returned to you without being marked. You will have to repeat the assignment. In each assignment, Section A comprises theoretical questions and Sections B & C comprise Practical Exercises. Each assignment carries 100 marks; 60 marks for Section A and 20 marks each for Sections B & C. The assignments printed in this booklet contain section A of the three assignments. The Practical Exercises for Section B & Section C of the three assignments are contained in the Practical Manual for CNCC-2 which you would have received in your study material. There are 10 exercises in this Practical Manual. You have to do two exercises from this Practical Manual for CNCC-2 assignment. Information about which exercises have to be done for each assignment, is given under Section B & Section C of CNCC-2 assignment in this booklet. Though you have to submit only two Practical Exercises for CNCC-2 Assignment, We advise you to do all the Practical Exercises contained in the Practical Manuals. This will give you practice in applying theoretical concepts in real life and you will develop skills of interacting with children. After doing the different exercises, you can select the exercise which you have done best for the assignment.

POINTS TO KEEP IN MIND

You will find it useful to keep the following points in mind:

- 1) **Planning:** Read the assignments carefully. Go through the units on which they are based. Make some points regarding each question and then rearrange these in a logical order.

- 2) **Organization:** Be a little more selective and analytical. Give attention to your introduction and conclusion. The introduction must offer your brief interpretation of the question and how you propose to develop it. The conclusion must summarize your response to the question.

Make sure that your answer:

- Is logical and coherent
 - Has clear connections between sentences and paragraphs
 - Is written correctly giving adequate consideration to your expression, style and presentation
 - Does not exceed the number of words indicated in the question.
- 3) **Presentations:** Once you are satisfied with your answers, you can write down the final version for submission, writing each answer neatly and underline the points you wish to emphasize.
