Keep a scan copy of assignments with you until the marks are reflected in your grade card.

Guidelines

- 1) **Planning:** Read the assignments carefully. Go through the self learning material / web references on which they are based. Make points regarding each question and then rearrange these in a logical order.
- 2) **Organization:** Be a little more selective and analytical. Give attention to your introduction and conclusion. The introduction must offer brief interpretation of the question and how you propose to develop it. The conclusion must summarize your response to the question.
- 3) **Make sure that your answer:**
 - a) is around 800 words for each question.
 - b) is logical, coherent and has clear connections between sentences and paragraphs.
 - c) is written correctly giving adequate consideration to your expression, style and presentation.
- 4) **Presentations:** Once you are satisfied with your answers, you can write the final version for submission. Write each answer neatly and underline the points you wish to emphasize.
- 5) **Please contact the Programme Coordinator for any clarification:**

ASSIGNMENT - 2
Animal Welfare Issues

Course Code: MAW-002
Maximum Marks: 100

Answer all the questions. Each question carries 20 marks

1. Evaluate how housing systems influence dairy animals' welfare. What socio-economic or practical factors drive the continuation of painful husbandry procedures?
2. Analyze the ethical and physiological welfare dilemmas of intensive pig production, focusing on the specific use and criticism of farrowing crates.
3. Categorize performing animals. What unique behavioral and physical welfare risks do these commercial entertainment environments create?
4. Argue how failing to provide the Five Freedoms constitutes a failure in responsible pet ownership. Use examples of common companion animal welfare issues.
5. Imagine you are hired to work at a university research lab. How would you use the 3Rs (Replacement, Reduction, Refinement) to make the animals' lives better? Give two examples of daily welfare problems you might see in the lab, and explain how the lab veterinarian can help solve them."
