#### **Suggestions for writing an assignment:**

Read the assignment carefully. Scan through the whole material of the course, answers may be linked within the blocks/units and some questions are applied type based on your theory blocks. Draw a rough outline of your answer in your words. Support your answer with examples from your clinical / community experience. Make a logical order. Then write your answer neatly and submit. Give illustrations and tables wherever necessary. Submit assignments as per instructions. **You may keep a Xerox copy of the answer sheets if submitted offline for future reference.** Do not from print material.

Answer TMA 1 and 2 of 3 Courses (NOSs) in the separate sheets. On the first page of the assignment response sheet, write the course code, course title, assignment code, name of your Programme Study Centre (PSC) and date of submission.
