- Consultant, *Climate Justice in India Project*, Centre for Science and the Imaginations, Arizona State University, Tempe, Arizona, 2021
- I am on the *Expert Panel* of *UGC- Consortium for Educational Communications*, New Delhi, for the evaluation of *Multi-Media Productions* and *E-Contents* on History.
- I have been nominated a member of Academic Council for ARPIT (Annual Refresher Program in Teaching) of National Resource Center for the discipline of History, since February 2019.
- I am member of Rajasthan History Congress since 2016
- I am member of European Society for Environment and History since 2011
- I am founder member of Human Development Society, a non-government organisation and presently General Secretary of the organisation.
- I am founder member of *Teachers Against Climate Crisis*, it is a non-funded, non-party collective largely of college and university teachers. We believe that the climate crisis is deeply related to mainstream development trajectories, and to growing inequalities of incomes and wealth, in India and worldwide. Both these – and other systemic roots of global warming – need to be critically interrogated if we wish to find ways forward and out of the deepening crisis.
