Time : 3 Hours

Maximum Marks : 100

(Weightage : 70%)

Note : (i) Answer any **five** questions.

(ii) All questions carry equal marks
(20 Marks).

-
1. Critically evaluate how the idea of sustainable development differs from economic growth, with reference to India's environmental policies.
 2. How should journalists report on regional disparities in environmental development while ensuring balanced and fact-based coverage ?

3. In what ways can environmental journalists integrate participatory approaches into reporting on ecological issues ?
4. Examine the contribution of media to grassroots environmental awareness through case studies of community communication projects in India.
5. Critically examine the challenges journalists face while covering environmental issues in marginalized and ecologically sensitive regions.
6. How do rural development programmes reflect the Indian state's shifting priorities toward environmental sustainability ?
7. Critically analyze the media's role in highlighting challenges of housing, sanitation, waste management, and infrastructure in the context of urban environmental concerns.

8. Analyze the role of media in environmental literacy movements and public awareness campaigns.
9. Critically analyze the effectiveness of national health and environment-related programmes and their media coverage.
10. Discuss how environmental journalism can contribute to climate resilience and sustainable development.
