---

1. Read the passage given below and answer the questions that follow :

Education is a powerful tool that has the potential to change lives, shape societies, and drive progress. It is not merely the transfer of knowledge from one generation to another but a multifaceted process that empowers individuals, fosters critical thinking, and builds a foundation for a brighter future.

At its core, education equips individuals with the knowledge and skills needed to navigate the complexities of the modern world. It provides the tools to read, write, and comprehend information, enabling access to a wealth of ideas and perspectives. Education empowers individuals to engage in informed decision-making, contribute to their communities, and participate in the workforce.

Education is a bridge to opportunity. It opens doors to careers and professions that may have otherwise remained out of reach. It breaks the cycle of poverty by offering marginalized individuals a pathway to economic independence. In societies where education is valued and accessible, a more equitable distribution of resources and opportunities often follows.

Furthermore, education is a catalyst for personal growth and development. It nurtures creativity, critical thinking, and problem-solving skills. It encourages

curiosity and the pursuit of lifelong learning. Through education, individuals not only acquire knowledge but also develop the ability to adapt to an ever-changing world.

Inclusive and quality education is the cornerstone of social progress. It promotes tolerance, understanding, and empathy by exposing individuals to diverse perspectives and cultures. It is a means to address societal issues, fostering awareness of environmental sustainability, social justice, and global citizenship.

(a) On the basis of your reading of the passage, answer the following questions :

(i) What is the fundamental purpose of education ? 2
